

Description

Metal Mate 40 x 40 x 3mm x 3m Silver Aluminium Equal Angle is a precision component crafted from high-quality aluminium, offering a reliable solution for various architectural and engineering applications. Its L-shaped design provides effective load distribution and efficient structural support for trade and industrial professionals. The product's consistent dimensions and robust build ensure dependable performance in technical projects, facilitating accurate assembly and maintenance within established construction systems.

Features

- Made from lightweight, durable aluminium for robust performance
- L-shaped design supports versatile assembly configurations
- 40 x 40 profile offers consistent structural strength
- 3mm thickness delivers firm rigidity in applications
- 3m length provides extended coverage and ease handling
- Silver finish maintains appearance and resists corrosion
- Manufactured with precision for reliable installation performance
- Metal Mate quality ensures consistent product satisfaction

Product Code: 6507

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	3
Product Height (mm)	40
Product Width (mm)	40
Product Length (mm)	3000
