

Description

Metal Mate 30 x 30 x 3.0mm x 3m Aluminium Angle is a precision-manufactured L-shaped equal angle designed for secure structural applications and accurate framing work. The silver aluminium profile offers a consistent cross-sectional form and reliable dimensional accuracy, which supports effective alignment and robust assembly in various construction projects. Its engineered design provides practical technical advantages that benefit trade professionals requiring dependable and consistently performing aluminium components.

Features

- L shaped design offers structural reliability
- Uniform equal angles provide consistent load distribution
- Constructed from durable aluminium for lightweight strength
- Precision dimensions deliver 30 x 30 profile with 3mm thickness
- 3m length accommodates varied technical installations
- Silver finish ensures clear visibility in design layouts
- Sharp clean edges improve material alignment during installation
- Reliable structure optimises support for technical projects

Product Code: 6510

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	3
Product Height (mm)	30
Product Width (mm)	30
Product Length (mm)	3000
