

Description

Metal Mate 25 x 25 x 1.4mm x 3m Black Aluminium Equal Angle is constructed from aluminium and shaped in an L-form to provide reliable support in various assembly tasks. This equal angle is designed for precision when used in frameworks and reinforcement solutions, offering accurate dimensions and consistent performance. Its robust construction assists trade professionals in achieving secure connections and efficient project implementation across numerous applications.

Features

- High-quality aluminium for strength and light weight
- Equal angle design in L shape for reliable support
- Neat black finish for clear identification and durability
- Precisely dimensioned 25 x 25 x 1.4mm for secure applications
- Long length of 3m suitable for versatile configurations
- Consistent profile ensuring uniform load distribution
- Resistant to minor impacts with a smooth surface finish
- Precision production guarantees accurate and efficient assembly

Product Code: 6555

General

Product Type                      Equal Angles

Appearance

Product Shape                    L-Shaped

Product Colour                  Black

Construction

Product Material 1              Aluminium

Dimensions

Product Thickness (mm)                      1.4

Product Height (mm)                              25

Product Width (mm)                              25

Product Length (mm)                            3000
