

Description

Metal Mate 50 x 50 1.6mm x 3m Black Aluminium Equal Angle is a robust L-shaped profile designed to provide reliable support in technical applications. Crafted from aluminium, it offers light weight and corrosion-resistant properties that enhance durability and performance. Its equal angle configuration promotes uniform load distribution, making it well suited for custom frame construction, mounting, and structural support tasks for industrial and trade professionals. The design facilitates precise assembly and ensures consistent quality in utilisation.

Features

- L-shaped equal angle provides robust versatility in construction applications
- Black finish ensures clean appearance for finished projects
- Precision dimensions ensure accurate alignment during assembly
- Durable aluminium construction offers long-lasting strength
- Uniform 1.6mm thickness enhances stability in structural designs
- Effortless installation with standard design and dimensions
- Versatile 3m length suits diverse design requirements
- Engineered by Metal Mate for quality construction projects

Product Code: 6562

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Black

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 50

Product Width (mm) 50

Product Length (mm) 3000
