

Description

Metal Mate 40 x 40 x 3mm x 2.4m Aluminium Equal Angle is a precisely engineered L-shaped component developed from durable aluminium with a silver finish. It is designed for secure framing and support applications, offering accurate dimensions and reliable performance. Trade professionals benefit from its consistent quality and robust construction, which provides confidence in projects requiring dependable load-bearing connections and precision-fitted structural components.

Features

- Crafted from aluminium for robust structural stability
- Equal angles offer precise dimensions for accurate alignment
- L-shaped design supports versatile mounting applications
- Silver finish enhances corrosion resistance and visual appeal
- Metal Mate quality ensures precise manufacturing tolerances
- Ideal for fabricating robust frames and support structures
- 40 x 40 cross-section provides consistent performance
- 3mm wall thickness augments load capacity and stability

Product Code: 6659

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	3
Product Height (mm)	40
Product Width (mm)	40
Product Length (mm)	2400
