

Description

Metal Mate 25 x 25 x 1.4mm x 1m Black Aluminium Equal Angle is a precision-engineered component suitable for a range of framing and support applications in trade settings. Constructed from durable aluminium, it provides a reliable L-shaped solution that offers accuracy and stability for various projects. The product's neat black finish and standard dimensions ensure ease of integration with other structural components commonly used by professionals in commercial and technical trades.

Features

- Constructed from durable aluminium with black protective coating
- L-shaped equal angle design adds structure and stability
- Precision engineered for reliable quality and strong performance
- Designed with 25 x 25 x 1.4mm dimensions for accuracy
- Ideal for precise joints and robust framework construction
- Features a uniform black finish enhancing visual consistency
- Lightweight aluminium construction for ease of handling and installation
- Manufactured to exacting tolerances for precise alignment and fit

Product Code: 6770

General

Product Type                      Equal Angles

Appearance

Product Shape                    L-Shaped

Product Colour                  Black

Construction

Product Material 1              Aluminium

Dimensions

Product Thickness (mm)                      1.4

Product Height (mm)                              25

Product Width (mm)                              25

Product Length (mm)                            1000
