

Description

Metal Mate 40 x 40 x 1.4mm x 1m Black Aluminium Equal Angle is an L-shaped equal angle manufactured from aluminium with a black finish. Designed for precision structural applications and general construction tasks, it provides consistent alignment and straightforward integration into various assemblies. Its uniform dimensions support accurate fabrication and reliable joints, offering practical technical advantages for trade professionals seeking dependable components for their projects.

Features

- Precision cut equal angles for accurate structural support
- L-shaped design offers consistent load-bearing capabilities
- Robust aluminium material ensures long service life
- Uniform black finish provides a professional appearance
- Easy integration into diverse structural systems
- Compact dimensions equal 40x40x1.4mm for versatile use
- Precision machining produces even edges for reliable assembly
- Engineered for precise fit within custom structural frameworks

Product Code: 6773

General

Product Type                      Equal Angles

Appearance

Product Shape                    L-Shaped

Product Colour                   Black

Construction

Product Material 1                Aluminium

Dimensions

Product Thickness (mm)                      1.4

Product Height (mm)                            40

Product Width (mm)                            40

Product Length (mm)                           1000
