

Description

Metal Mate 16 x 16 x 3mm x 1m Aluminium Equal Angle is a precision-engineered component designed for construction and fabrication tasks. Its L-shaped, silver finish and aluminium build offer dependable strength and dimensional consistency for trade professionals. The product provides a practical solution for framework assembly and technical support structures, ensuring reliable performance and ease of installation in various applications that require accurate, robust joining or reinforcement.

Features

- L shaped design delivers robust structural support
- Aluminium build offers lightweight yet durable performance
- Precision equal angles ensure consistent engineering dimensions
- Silver finish provides clean corrosion resistance
- 16 x 16 profile suits versatile mounting applications
- 3mm thickness supports secure stable assembly connections
- 1m length meets diverse project span requirements
- Metal Mate quality ensures reliable precise engineering fit

Product Code: 6782

General

Product Type	Equal Angles
Appearance	
Product Shape	L-Shaped
Product Colour	Silver

Construction

Product Material 1	Aluminium
--------------------	-----------

Dimensions

Product Thickness (mm)	3
Product Height (mm)	16
Product Width (mm)	16
Product Length (mm)	1000
