

Description

Metal Mate 2 Way Connect-It Corner Joiner is an aluminium joiner featuring a square design in black. It provides precise joining for corner constructions, supporting clear assembly of frameworks and joining components. Industrial and trade professionals benefit from its dependable design and ease of installation, which facilitates efficient assembly of components for various projects. The joiner offers technical advantages through its engineered shape and finish.

Features

- Square shape enables precise corner joining
- Constructed from aluminium for durability and light weight
- Black finish adds a professional clean look
- Two way design supports versatile corner connections
- Engineered for strength and reliable joint performance
- Metal Mate quality ensures precision in each connection
- Aluminium construction offers reduced weight and robust rigidity
- Compatible with diverse configurations in technical assemblies
