

Description

Metal Mate 20 x 20 x 1.5mm x 3m Aluminium Tee Section is crafted from aluminium featuring a precise T section design in a silver finish. It offers reliable structural support for various assembly applications, ensuring ease of alignment and stability. Its robust construction and accurate dimensions facilitate seamless integration into technical projects, providing trade professionals with a dependable component for custom frameworks and construction tasks.

Features

- Constructed using high-quality aluminium for reliable performance
- T section shape offers improved structural support
- Precision engineered for uniform strength and alignment
- Robust silver finish provides clear visual identification
- Simple installation aids efficient assembly
- Corrosion-resistant aluminium material ensures extended durability
- Offers versatility across a range of technical applications
- Detailed dimensions enhance planning and custom fabrications

Product Code: 7000

General

Product Type	Tee Sections
Appearance	
Product Shape	T Section
Product Colour	Silver

Construction

Product Material 1	Aluminium
