

Description

Metal Mate 40 x 40 x 1.6mm x 1m Aluminium Tee Section is a T section element with a silver finish and robust aluminium construction. It offers a precise and lightweight solution for fabricating frames, supports and custom assemblies. The component provides technical advantages through its clear dimensions and consistent quality, making it a dependable choice for trade professionals engaged in detailed construction and engineering projects. Its standardised dimensions also simplify integration into various applications.

Features

- Precision engineered T-section design for reliable structural performance
- Manufactured aluminium construction for enhanced strength and lightweight assembly
- Silver finish providing consistent appearance and corrosion resistance
- Uniform tee dimensions ensure seamless integration within frameworks
- Precision engineered for exact fit and efficient mounting
- Optimised T-section shape for load distribution and stability
- High quality aluminium ensures durable performance under repeated stress
- Available in standard lengths for versatile project configurations

Product Code: 7254

General

Product Type Tee Sections

Appearance

Product Shape T Section

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 40

Product Width (mm) 40

Product Length (mm) 1000
