

Description

Metal Mate 20 x 20 x 1.5mm x 3m Aluminium Channel is a U-shaped aluminium channel in a silver finish designed for reliable performance. It provides a robust framework for mounting and supporting structural components in various applications. Its precision design offers ease of assembly and consistent performance in settings that demand accuracy and durability, making it a practical choice for trade professionals who require dependable and cost-effective solutions.

Features

- Precision extruded aluminium U channel design
- Uniform 20 x 20mm profile for accurate alignment
- 1.5mm wall thickness supports stable structural integrity
- Silver finish provides clean and uniform surface
- 3m length enables versatile layout configurations
- Engineered for precise measurements and reliable performance
- Facilitates custom fabrication and standard framework assembly
- Reliable aluminium material ensures long life and durability
