

Description

Metal Mate 16 x 12 x 1.6mm x 3m Aluminium Section Channel is a durable U channel designed for precise alignment and structural support in various applications.

Manufactured from aluminium, it provides a lightweight yet robust solution for tasks involving assembly and framework construction. Its consistent dimensions and quality finish make it a reliable component for trade and professional installations, ensuring efficient performance in practical, everyday projects in construction and repair.

Features

- Constructed from high strength lightweight aluminium
- Precision engineered U channel for reliable structural support
- Smooth silver finish offers clean modern appearance
- Uniform dimensions ensure consistent quality performance
- Ideal for framing, mounting and assembly applications
- Robust design provides secure, stable installations
- Engineered for diverse configurations in custom projects
- Precision dimensions meet stringent fabrication tolerances
