

Description

Metal Mate 10 x 10 x 1.5mm x 2.4m Aluminium Channel is a precision-engineered U channel constructed from aluminium with a silver finish. It is designed for applications such as secure mounting, framing or support systems, providing reliable dimensional consistency and ease of integration into various projects. Its engineering characteristics ensure effective load distribution and dependable performance, while the durable material and straightforward design facilitate efficient assembly and alignment for trade professionals.

Features

- Precision engineered U shape provides secure mounting
- Durable aluminium material ensures long-lasting channel performance
- Silver finish delivers clean, professional appearance
- 10 x 10 x 1.5mm x 2.4m enables easy integration
- Consistent channel tolerance supports precise structural alignment
- Lightweight design simplifies handling and installation
- Robust construction withstands prolonged use and stress
- Versatile channel suitable for varied construction applications

Product Code: 7550
