

Description

Metal Mate 20 x 20 x 1.5mm x 2.4m Aluminium Channel is a robust U channel designed for various assembly tasks in architectural and engineering projects. Its aluminium construction provides lightweight durability and simplified fabrication, while the silver finish ensures a neat appearance and easy integration into mechanical systems. The channel offers reliable support, accurate alignment, and efficient assembly processes for professionals requiring precise and consistent structural components.

Features

- Engineered U Channel profile for precise structural applications
- High-strength aluminium construction ensures reliable performance
- Sleek silver finish guards against corrosion and wear
- Uniform dimensions provide exact fit for assemblies
- Lightweight design simplifies transportation and on-site handling
- Precision cut for accurate alignment in metal frameworks
- Smooth edges ensure safety during handling and installation
- Controlled dimensions support repeatable and efficient builds

Product Code: 7553

General

Product Type Channels

Appearance

Product Shape U Channel

Product Colour Silver
