

Description

Metal Mate 20 x 20 x 1.5mm x 1m Aluminium Channel is a purpose-built U channel made from high-quality aluminium with a silver finish, designed for precise structural support and framing applications in various technical assemblies. Its reliable form factor and measured dimensions ensure accuracy and ease of installation, providing professionals with a robust component for complex design integrations and practical system setups that demand consistency and performance.

Features

- 20x20 mm aluminium U channel with 1m overall length
- 1.5 mm wall thickness for reliable structural performance
- Silver finish offers a clean and uniform appearance
- Precisely engineered with durable aluminium for long lasting use
- U channel shape ensures easy alignment in framing applications
- Consistent dimensions provide interchangeability in assembly projects
- Lightweight aluminium improves ease of handling and installation
- Manufactured by Metal Mate for reliable high quality performance
