

Description

Metal Mate 38.1 x 4.75mm x 3m Aluminium Crescent Mould offers a durable and accurately engineered crescent mould ideal for trade professionals working on precision curved profiling projects. The silver finish and aluminium construction provide consistent strength and lightweight handling while maintaining precise dimensions. This product is valued for its ease of integration into technical workflows and its capability to deliver reliable forming results across various assembly and design applications.

Features

- Robust aluminium structure ensures strength and durability
- Precision crescent shape supports accurate forming applications
- Silver finish gives refined low maintenance aesthetics
- Lightweight design facilitates simple installation and handling
- 38.1 x 4.75mm cross-section suits secure, precise connections
- 3m length offers flexibility in configuring diverse layouts
- Engineered for consistent performance under varying operational demands
- Metal Mate engineering delivers quality and precision mould production

Product Code: 8518

General

Product Type Crescent Moulds

Appearance

Product Shape Crescent

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	1.2
Product Height (mm)	38.1
Product Width (mm)	4.75
Product Length (mm)	3000
