

Description

Metal Mate 40 x 40 x 1.6mm x 3m Aluminium Tee Section is a precision-engineered T-section component crafted from high-quality aluminium. It is designed for reliable structural joins and support applications in fabrication and construction projects. The silver finish offers a neat appearance along with effective corrosion resistance, ensuring consistent and robust performance. Professionals in trade and related fields appreciate the component's ease of assembly, accurate dimensions and dependable quality.

Features

- Engineered aluminium construction for reliable strength and weight reduction
- Silver finish provides enhanced corrosion resistance and professional aesthetics
- T section profile ensures precise alignment for practical assembly
- Robust design excelling in trade and structural applications
- Lightweight aluminium facilitates handling during installation and maintenance
- Uniform dimensions ensure compatibility with various project requirements
- Simplified T section design reduces assembly time on site
- Durable aluminium construction offers longevity and dependable performance

Product Code: 8523

General

Product Type	Tee Sections
Appearance	
Product Shape	T Section
Product Colour	Silver

Construction

Product Material 1	Aluminium
--------------------	-----------

Dimensions

Product Thickness (mm)	1.6
Product Height (mm)	40
Product Width (mm)	40
Product Length (mm)	3000
