

Description

Metal Mate 19 x 19 x 1.57mm x 2.4m Aluminium Fluted Angle is an L-shaped aluminium component featuring a distinct fluted profile designed for precise structural configurations. Its robust design ensures reliable alignment and ease of assembly, making it a practical choice for trade professionals requiring consistent performance and efficient integration in commercial projects. The component's engineered dimensions and lightweight properties support accuracy and stability where precise construction is essential.

Features

- Aluminium construction offers sturdy, lightweight L-shaped fluted support
- Fluted profile improves bonding and alignment for various applications
- Precise dimensions at 19 x 19 x 1.57mm ensure accuracy
- Durable silver finish provides aesthetic and lasting surface visual appeal
- Simple design facilitates quick alignment during assembly procedures
- Engineered for steady performance under practical conditions
- Reliable integration supports secure joint connections
- Precision machining ensures uniform quality and ease of use

Product Code: 8601

General

Product Type                      Fluted Angles

Appearance

Product Shape                      L-Shaped

Product Colour                      Silver

Construction

Product Material 1                      Aluminium

Dimensions

Product Thickness (mm)                      1.57

Product Height (mm)                      19.05

Product Width (mm)                      19.05

Product Length (mm)                      2400
