

BRACKET DIMENSIONS

Product Code: AW1756

Description

Carinya 175 x 150mm White Angle Bracket is a robust component engineered from powder coated steel, designed for precision support and secure alignment in various applications. It is constructed to deliver consistent strength and durability, meeting the demands of industrial and trade professionals. The white finish provides a neat and professional appearance, while its design facilitates reliable integration into technical setups and projects requiring accurate load distribution.

Features

- Constructed from powder coated steel for lasting strength
- White finish provides a clean, professional aesthetic
- Compact design measures 175 x 150mm
- Precise angle configuration ensures secure fixing
- Engineered for robust, dependable structural support
- Corrosion resistant surface extends product longevity
- Optimised design streamlines bracket installation
- Precision machining delivers accurate, repeatable dimensions
