

Carinya 75 x 50mm Zinc Plated Angle Bracket

BRACKET DIMENSIONS

Description

Carinya 75 x 50mm Zinc Plated Angle Bracket is designed for precise structural reinforcement in technical assembly and repair applications. The bracket is crafted from robust steel with a zinc plated finish that offers durability and corrosion resistance. It ensures secure mounting and accurate alignment in various framework arrangements, providing dependable performance for trade professionals who require efficient and reliable component support in their projects.

Features

- Constructed from robust steel with durable zinc plating
- Precisely engineered for optimal bracket performance
- Sleek zinc finish enhances corrosion resistance and appearance
- Compact design fits diverse mounting configurations
- Precision dimensions measure 75 x 50mm for accurate assembly
- Engineered for stability in load bearing applications
- Reliable performance with precise angular alignment
- Designed for easy integration into varied assembly systems
