

Carinya 125 x 100 x 20 x 4mm Zinc Plated Angle Bracket - Single

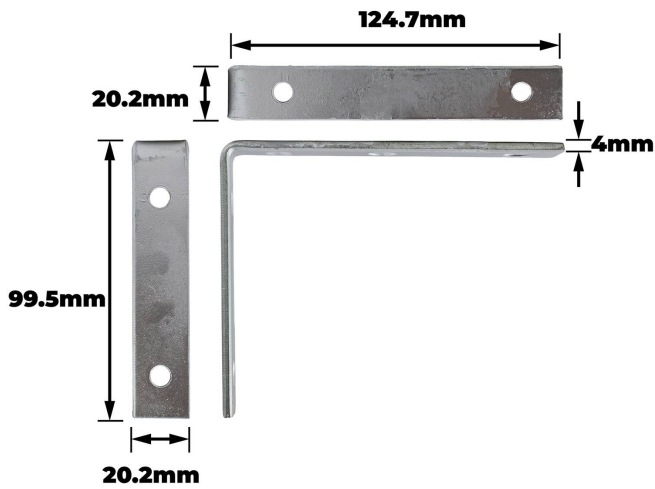

Description

Carinya 125 x 100 x 20 x 4mm Zinc Plated Angle Bracket - Single is a steel angle bracket enhanced with zinc plating for durability and corrosion resistance. It provides practical support and secure fixings for a range of applications in mechanical assemblies and construction frameworks, ensuring precision during repairs and installations. Its design meets the needs of trade professionals who require straightforward integration and consistent performance for reliable structural support.

Features

- Made from high-grade steel for lasting support
- Zinc plated finish provides enhanced rust resistance
- Dimensions deliver stability in supports and bracing
- Compact design ensures ease of integration and handling
- Manufactured by Carinya ensuring proven construction reliability
- Single bracket design offers simplified installation and maintenance
- 125x100x20x4mm dimensions support precise alignment
- Engineered for secure connections in frame assemblies
