

Carinya 250 x 200mm Zinc Plated Heavy Duty Angle Bracket

BRACKET DIMENSIONS

Product Code: AZ18

Description

Carinya 250 x 200mm Zinc Plated Heavy Duty Angle Bracket is a precision-engineered support component made from zinc plated steel that delivers robust reinforcement for various applications. It is designed to provide secure jointing in assemblies and structural repairs, ensuring firm and reliable corner support. The bracket offers a straightforward solution for trade professionals needing dependable, quality fastenings for construction and maintenance projects.

Features

- High strength zinc plated steel construction
- Designed for heavy duty performance
- Right angle design improves mounting efficiency
- Precise machining ensures consistent fit
- Zinc plating protects against corrosion
- Engineered to support angled components securely
- Simplified installation supports faster setup
- Reliable load bearing capacity for demanding applications
