

Carinya 75 x 75 x 75 x 4mm Zinc Plated Reinforcing Angle Bracket

BRACKET DIMENSIONS

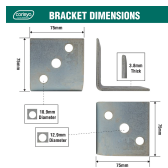

Description

Carinya 75 x 75 x 75 x 4mm Zinc Plated Reinforcing Angle Bracket is manufactured from zinc plated steel and designed for precise structural reinforcement. It offers a practical solution for secure assembly and support in various trade applications. Its robust build ensures consistent performance and simplifies integration with other components, providing professionals with a reliable fixture for reinforcing structures and enhancing design stability. The bracket's technical advantages support efficient installation and long-lasting reliability.

Features

- Durable zinc plated steel construction provides lasting strength
- Reinforcing angle bracket design offers secure support connections
- Zinc plating provides robust corrosion resistance
- Standard 75x75x75x4mm dimensions enable consistent bracket placement
- Precision engineered for reliable installation and performance
- Uniform zinc plating enhances overall aesthetic and durability
- Robust design supports secure connections for varied uses
- Engineered for reliable load distribution and long term service
