

Product Code: B00074

Description

Carinya 250 x 200mm Stainless Steel Angle Bracket is a robust bracket engineered for precision support in structural applications. Manufactured from brushed stainless steel, it offers durability and consistent performance for trade professionals. Its design provides accurate right-angled reinforcement for constructing secure frames and assemblies. The bracket delivers practical load-bearing capabilities that enhance the stability and longevity of various construction and equipment setups.

Features

- High-quality stainless steel construction ensuring structural integrity
- Brushed stainless steel finish for a refined appearance
- Precision engineered angle bracket design
- Standard dimensions 250 x 200mm for varied applications
- Resistant to corrosion for long-lasting performance
- Simplistic design supports easy integration and installation
- Designed with precision for improved load distribution
- Rigorously crafted to meet practical technical requirements
