

Product Code: B00231

Description

Carinya 290 x 240mm Plywood Angle Bracket is engineered for precise joining in construction and repair projects. Its reliable design utilises quality plywood to deliver consistent durability and stable support for angular assemblies. The bracket's robust structure facilitates straightforward installation and dependable reinforcement, offering practical benefits for trade professionals in aligning critical components. It provides a sound solution for achieving structurally secure connections in demanding applications.

Features

- Durable plywood construction ensuring strength and stability
- Raw finish providing natural wood aesthetics
- Engineered for precise, accurate bracket support
- Engineered fastening promotes robust and stable joint connections
- Straightforward design simplifies installation process
- Manufactured to support reliable load distribution
- Neat finishing details enhance precise bracket fitting
- Carinya quality guarantees robust angle bracket performance
