

Carinya 100 x 75 x 20 x 5mm Hot Dipped Galvanised Angle Bracket

Description

Carinya 100 x 75 x 20 x 5mm Hot Dipped Galvanised Angle Bracket offers a reliable solution for securing and supporting connections in various assembly applications. Constructed from steel and finished with hot dipped galvanisation, it affords effective load distribution and durability over time. The bracket is designed to facilitate precise alignments and maintain long-lasting stability, contributing to efficient building and repair projects for trade professionals.

Features

- Robust steel construction ensures lasting performance
- Hot dipped galvanised finish for superior corrosion resistance
- Precisely dimensioned using 100 x 75 x 20 x 5mm measurements
- Provides secure angular support for structural integrity
- Engineered to withstand demanding load and stress requirements
- Precision design for even load distribution and stability
- Simple installation design for efficient assembly
- Trusted Carinya quality supporting reliable structural joining
