Carinya 40 x 80 x 40 x 5mm Hot Dipped Galvanised Reinforcing Angle Bracket

Description

Carinya 40 x 80 x 40 x 5mm Hot Dipped Galvanised Reinforcing Angle Bracket is a precision-engineered component constructed from hot dipped galvanised steel. It is designed for accurate structural reinforcement in construction and repair projects, providing reliable support and utilisation efficiency to trade professionals. The component offers secure fixing points and robust durability, making it a practical choice for tasks that require dependable load distribution and stability.

Features

- Hot dipped galvanised finish for long-lasting corrosion protection
- Robust hot dipped galvanised steel construction for strength and durability
- Engineered for precision reinforcement in structural applications
- 40x80x40x5mm design ensures secure angle support
- High-quality galvanisation supports tough applications
- Engineered design improves load distribution and stability
- Crafted by Carinya for consistent structural performance
- Simple installation supports efficient assembly in structural systems

Product Code: B11465

Dimensions

Product Length (mm)	80
Product Width (mm)	40
Product Height (mm)	40
Product Thickness (mm)	4.8
Diameter of Fixing Holes (mm)	13.5

Appearance

Product Colour	Hot Dipped Galvanised

Construction

Product Material 1	Hot Dipped Galvanised Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
