

Carinya 75 x 150 x 75 x 5mm Hot Dipped Galvanised Reinforcing Angle Bracket

Description

Carinya 75 x 150 x 75 x 5mm Hot Dipped Galvanised Reinforcing Angle Bracket provides durable and precise support in structural applications. Constructed from hot dipped galvanised steel, the angle bracket ensures consistent performance and resistance to corrosion, optimising stability in joinery and framework constructions. Designed for practical use, it offers enhanced strength and reliability, making it a valuable component for professionals in the trade.

Features

- Precisely engineered dimensions 75x150x75x5mm for accuracy
- Constructed from hot dipped galvanised steel for strength
- Robust angle bracket design ensures secure load distribution
- Manufactured with quality tolerances for reliable reinforcement
- Corrosion resistant galvanisation prolongs service life
- Developed for dependable structural support and safe fittings
- Uniform finish promotes consistent performance and easy installation
- Engineered design facilitates quick mounting and stable support

Product Code: B11467

Dimensions

Product Length (mm)	150
Product Width (mm)	75
Product Height (mm)	75
Product Thickness (mm)	5
Diameter of Fixing Holes (mm)	12.6

Appearance

Product Colour	Hot Dipped Galvanised
----------------	-----------------------

Construction

Product Material 1	Hot Dipped Galvanised Steel
--------------------	-----------------------------

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
