

Carinya 75 x 50 x 50 x 4mm Hot Dipped Galvanised Reinforcing Angle Bracket

Description

Carinya 75 x 50 x 50 x 4mm Hot Dipped Galvanised Reinforcing Angle Bracket offers reliable performance for structural reinforcement tasks. Manufactured from hot dipped galvanised steel, it provides consistent support in assembling frameworks and stabilising panels. Its precision dimensions ensure an accurate fit and proper alignment during construction works, making it an essential component for assembly and repair projects in trade applications. The bracket's robust design aids effective load distribution in practical settings.

Features

- Constructed from hot dipped galvanised steel
- Bracket: 75x50x50 mm, 4 mm thick
- Galvanised finish enhances corrosion resistance
- Engineered for secure structural reinforcement
- Efficient design supports reliable load distribution
- Robust construction delivers long lasting performance
- Manufactured by Carinya with reliable hardware quality
- Designed for varied mounting and reinforcement applications
