

Carinya 125 x 100mm Heavy Duty Hot Dipped Galvanised Angle Bracket

Product Code: B11476

Description

Carinya 125 x 100mm Heavy Duty Hot Dipped Galvanised Angle Bracket is engineered to provide dependable support in architectural frameworks and construction projects. It is constructed from hot dipped galvanised steel, offering resistance to corrosion and enhanced longevity. This angle bracket enables precise load distribution and robust connection points, making it an ideal choice for trade professionals focused on accuracy and reliability in their installations.

Features

- Constructed from hot dipped galvanised steel for rugged performance
- Heavy duty design providing robust support for critical connections
- Hot dipped galvanised finish ensures long lasting corrosion protection
- Measured 125 x 100mm for precise structural applications
- Engineered for secure anchorage in diverse construction settings
- Refined geometry promotes balanced load transfer and secure fixings
- Precision engineering yields reliable performance in demanding projects
- Carinya design marks commitment to robust long term functionality
