

Carinya 150 x 125 x 20 x 5mm Hot Dipped Galvanised Angle Bracket

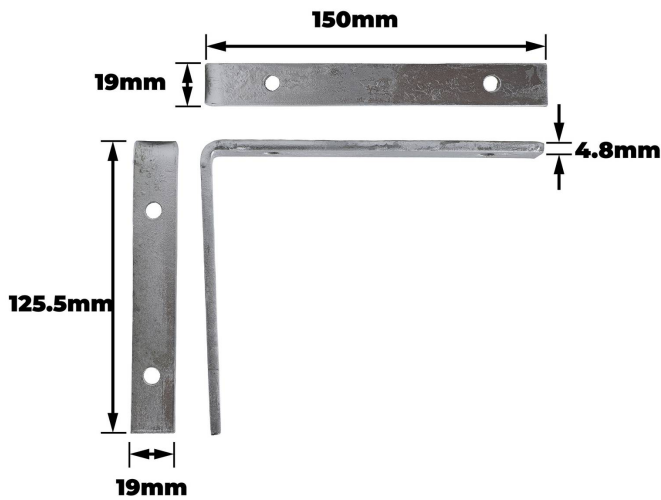

Description

Carinya 150 x 125 x 20 x 5mm Hot Dipped Galvanised Angle Bracket is a robust steel component designed for precise structural support in construction and trade applications. It offers a secure fixing solution that assists in aligning framework components during assembly and maintenance tasks. The galvanised finish enhances durability and corrosion resistance, while the accurate dimensions ensure reliable performance in various projects requiring dependable support and consistent load distribution.

Features

- Hot dipped galvanised steel construction for extended durability
- Robust design provides strong structural support
- Precise dimensions 150 x 125 x 20 x 5mm
- Engineered for accurate installation and alignment
- Ideal for fixed and supportive structural applications
- Precision engineered for tight fixings and secure joints
- Simple installation enhances overall project efficiency
- Consistent performance in reliable bracket design
