Carinya 230 x 40 x 40 x 2mm Hot Dipped Galvanised Reinforcing Angle Bracket

Product Code: BA230G

Description

Carinya 230 x 40 x 40 x 2mm Hot Dipped Galvanised Reinforcing Angle Bracket is a precision-engineered component constructed from hot dipped galvanised steel. It is designed to provide reliable support and reinforcement to framework assemblies, ensuring stable load distribution for various projects. Its robust design and galvanised finish offer effective corrosion resistance and durability. This product serves as a practical solution for professionals seeking dependable performance in structural applications.

Features

- Constructed from durable hot dipped galvanised steel
- Robust bracket design with dimensions 230x40x40x2mm
- Engineered for strong reinforcement in various applications
- Hot dipped galvanised finish enhances corrosion resistance
- Precision fabrication ensures uniform strength and performance
- Manufactured by Carinya with consistent quality control
- Engineered using proven techniques for reliable structural support
- Simple installation aligns with practical reinforcement requirements

Dimensions

Product Length (mm)	40
Product Width (mm)	40
Product Height (mm)	230
Product Thickness (mm)	1.9
Diameter of Fixing Holes (mm)	6.5

Appearance

Product Colour	Hot Dipped Galvanised

Construction

Product Material 1	Hot Dipped Galvanised Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
