

Description

SIT Steel Boiler Tube Brush 47mm x 1/2" is a purpose-built cleaning tool designed for maintaining the inner surfaces of boiler tubes. Constructed from high-grade steel with a reliable steel wire design, it delivers consistent performance under both indoor and outdoor conditions. Its precise dimensions facilitate effective deposit removal, making it a practical choice for trade professionals seeking dependable, straightforward cleaning equipment for routine servicing tasks.

Features

- Durable steel bristles remove deposits from boiler tubes
- Suitable for outdoor and indoor cleaning applications
- Polished silver surface resists rust and corrosion
- 47mm cleaning head fits standard boiler tube diameters
- Constructed with robust steel wire for precise cleaning tasks
- Simplifies routine maintenance with high-torque applications
- Engineered design offers improved residue clearance in tight spaces
- Reliable steel construction withstands extended cleaning operations

Product Code: BTB47
