

Description

SIT Steel Boiler Tube Brush 95mm x 1/2" is crafted in silver using durable steel and a steel wire design that facilitates effective cleaning of boiler tubes. It is engineered for both outdoor and indoor applications, supporting scheduled maintenance and operational reliability for industrial and trade professionals. The brush offers consistent performance and technical efficiency, ensuring precise cleaning and contributing to the longevity and optimal performance of essential machinery.

Features

- Crafted with durable steel bristles for precise tube cleaning
- Silver finish enhances visibility and corrosion resistance
- Engineered for efficient operation in various cleaning scenarios
- Simple design supports straightforward application in confined spaces
- Manufactured with precision for consistent cleaning performance
- Robust steel construction offers reliability and long service life
- Adaptable to both indoor and outdoor cleaning requirements
- Designed for efficient maintenance of boiler tubes without hassle

Product Code: BTB95

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No
Wire Style	Straight Wire Filament
