

Description

Easyroll 460 x 1350-3800mm Steel Expandable Conveyor 80Kg is constructed from carbon steel and features thermoplastic rubber wheels. It is designed for seamlessly moving goods across indoor workspaces, offering practical adjustability to suit varying layout requirements. The silver, black and grey finish provides a professional look while ensuring robust performance and ease of maintenance. This solution delivers dependable operational support to industrial and trade professionals.

Features

- Robust carbon steel frame for reliable material handling
- Thermoplastic rubber wheels provide quiet, smooth rolling
- Engineered with precise movement control and stability
- Silver, black and grey finish offers professional aesthetic
- Compact design facilitates easy integration with existing systems
- Assembled using quality components ensuring dependable performance
- Simple structure promotes straightforward maintenance and longevity
- Non-slip wheel design minimises movement during operation

Product Code: CE460WS

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Product Material 1	Powder Coated Steel
--------------------	---------------------

Weights

Product Weight (grams)	75,000
Product Weight (kg)	75
Load Capacity (kg) sqm	80

Dimensions

Product Height (mm)	990
Product Width (mm)	460
Product Length (mm)	3800
Wheel Diameter (mm)	50
