Description

Easyroll Conveyor 300mm Frame Tube Connector Width is a precision-engineered conveyor accessory designed to facilitate smooth material transfers in production settings. Constructed from carbon steel with a grey finish, it offers durable support and consistent performance. Paired with high-quality urethane wheels, the product supports seamless operation for trade professionals. Its robust design ensures ease of maintenance, optimised workflow and reliable performance for precise material handling in facilities.

Features

- Robust carbon steel structure offers reliable performance
- Precision cross bar design supports smooth conveyor operation
- Grey finish provides professional unobtrusive aesthetic appeal
- Durable urethane wheels ensure consistent belt movement
- Engineered for dependable indoor operational performance
- Connector frame design simplifies assembly and integration
- Improved load distribution extends cross bar lifespan
- Easyroll quality craftsmanship delivers stable conveyor motion
