

Description

Easyroll Conveyor 450mm Frame Tube Connector Width is a grey conveyor cross bar manufactured from carbon steel and designed for indoor use by industrial and trade professionals. It provides stable support and precise connectivity within material handling systems, enabling efficient operation and streamlined assembly. Its practical design contributes to improved workflow and technical consistency in controlled environments, offering predictable performance for routine applications.

Features

- Constructed from carbon steel for reliable durability
- Engineered for precision alignment on conveyor systems
- Robust design ensures stable performance in indoor settings
- Easyroll brand signifies trusted quality and technical expertise
- Grey finish offers a standard, non-reflective appearance
- Simple design facilitates integration with existing systems
- Engineered for accurate dimensions and precise alignment
- Provides robust support for secure material transport

Product Code: CFAK0450J

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
