Description

Cesco 174mm Straight Spout Funnels are silver tinplate funnels designed for precise liquid or particulate transfer. They offer a straight, demountable sprout and integrated filter with included hardware for easy assembly and maintenance. Engineered for consistent performance both indoors and outdoors, these funnels provide dependable functionality and technical efficiency. Trade professionals benefit from their robust construction and practical design, ensuring smooth and predictable operations in various applied settings.

Features

- Durable tinplate construction with attractive silver finish
- Suitable for indoor and outdoor use
- Includes hardware for reliable installation
- Features an integrated filter for improved flow
- Demountable sprout simplifies cleaning and maintenance
- Straight sprout design ensures precise liquid guidance
- Manufactured with quality materials for reliable performance
- Practical funnel design enhances transfer and dispensing operations
