Construction

Product Material 1	Tinplate
Product Material 2	Galvanised Steel

Description

Cesco Shearers Oil Can is a silver paint pot built with tinplate and galvanised steel. Designed with hardware included for secure assembly, it provides a practical solution for storing and transferring various liquid products. The product features robust construction suitable for both indoor and outdoor use. Its simple design assists industrial and trade professionals with efficient performance on routine tasks, supporting a reliable approach in technical applications.

Features

- Constructed from tinplate and galvanised steel for longevity
- Silver finish offers sleek practical appearance
- Hardware components included for secure assembly and installation
- Engineered for indoor and outdoor usability
- Robust construction ensures reliability during demanding usage
- Designed for ease of handling and maintenance
- Minimal design for practical storage and efficient workflow
- Trusted CESCO quality delivering dependable straightforward performance
