Easyroll 600mm Steel Conveyor Roller 110kg

Description

Easyroll 600mm Steel Conveyor Roller 110kg is engineered for precision material handling in indoor facilities. It utilises zinc plated steel for the main body and incorporates urethane wheels for dependable, smooth rolling performance. Designed to integrate with standard conveyor frames and suitable stands, this product ensures measured motion and accurate load tracking. It offers a practical, sturdy solution for professionals seeking an efficient and reliable component in transport and material management systems.

Features

- Zinc plated steel construction provides robust durability
- Urethane wheel material offers low‑friction surface engagement
- 600mm diameter meets rigorous application requirements
- 110kg load capacity supports substantial conveyance loads
- Designed for straight frames offers reliable compatibility
- Silver finish adds professional aesthetic appearance
- Indoor installation promotes streamlined material handling
- Compatible with Easyroll stands and frames for secure mounting

Product Code: CRA2S600X050

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	No
Suitable Stand	CSH0800X600A, CSH1050X600A
Suitable Frame	CFA1500X600A, CFA3000X600A
Suits Frame Type	Straight

Appearance

Product Colour	Silver

Construction

Product Material 1	Zinc Plated Steel

Weights

Product Weight (grams)	1,430
Product Weight (kg)	1.43
Load Capacity kg	110.0

Dimensions

Product Height (mm)	990
Product Width (mm)	50
Product Length (mm)	542
Face Width (mm)	530
Suits Frame Width (mm)	600
Over Bearing Width (mm)	542
