

Description

Easyroll 22mm Round M10 Expanding Adaptors are precision-designed round adaptors constructed from polypropylene with a grey finish. They utilise an expanding pintle fitting that ensures secure attachment on castors for indoor and outdoor use. These adaptors deliver reliable performance and ease of installation, serving industrial and trade professionals by streamlining equipment adjustments and maintenance. Their robust, technical design supports efficient handling and consistent operational reliability.

Features

- Precision engineered expanding pintle fitting for secure castor mounting
- Constructed from tough weather-resistant polypropylene material
- Designed for round tube connections offering reliable performance
- Suitable for indoor and outdoor applications
- Grey finish enhances subtle professional appearance
- Precise dimensions maintain compatibility with Easyroll castor systems
- Engineered for longevity under continuous usage
- Round structure supports simple maintenance and replacement

Product Code: E10R22

Specifications

Fitting Type	Expanding Pintle
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No
Suitable For	Castor
Tube Shape	Round

Appearance

Product Colour Grey

Construction

Product Material 1 Polypropylene

Dimensions

Product Length (mm)	75
Mounting Size (G) mm	M10
Suits Tube ID (mm)	19
Suits Tube OD (mm)	22

Weights

Product Weight (grams)	13
