

## Description

Easyroll 22mm Square M12 Expanding Adaptors are designed for precise adjustments when fitting castors and adapting square tube systems. Constructed from durable polypropylene in a grey finish, these adaptors offer a secure expanding pintle mechanism for accurate movement control in trade applications. They provide practical compatibility for both indoor and outdoor settings, making them a reliable choice for professionals seeking straightforward and efficient solutions in fitting and mobility tasks.

## Features

- Square design specialised for castor adaption
- Constructed from robust polypropylene ensuring durability
- Expanding pintle fitting for secure adaptation
- Grey finish offers a refined and professional appearance
- Suitable for indoor and outdoor use
- Square tube shape optimises adaptor connection integrity
- Easyroll design guarantees precision and reliable performance
- Engineered for simple installation and operational efficiency

**Product Code: E12S22**

## Specifications

|                   |                  |
|-------------------|------------------|
| Fitting Type      | Expanding Pintle |
| Outdoor Use       | Yes              |
| Indoor Use        | Yes              |
| Hardware Included | No               |
| Suitable For      | Castor           |
| Tube Shape        | Square           |

## Appearance

Product Colour                      Grey

## Construction

Product Material 1                      Polypropylene

## Dimensions

|                      |     |
|----------------------|-----|
| Product Length (mm)  | 75  |
| Mounting Size (G) mm | M12 |
| Suits Tube ID (mm)   | 19  |
| Suits Tube OD (mm)   | 22  |

## Weights

|                        |    |
|------------------------|----|
| Product Weight (grams) | 13 |
|------------------------|----|
