Description

Fischer Clear Compartment Boxes (1 Compartment) is designed for the storage and organisation of tools and components in trade environments. This clear compartment box features a robust Co-Polymer construction that ensures reliable durability and secure containment of items. Its transparent design allows users to quickly inspect contents, streamlining work processes in professional settings. The product offers practical applications through structured storage and efficient organisation for indoor use.

Features

- Constructed from durable co-polymer for extended lifespan
- Transparent design for easy visual identification of contents
- Single compartment design simplifies internal organisation
- Precision moulded construction ensures consistent quality
- Lightweight build aids straightforward handling and placement
- Engineered for secure storage of small components
- Compact design integrates into varied workspace layouts
- Built with clear finish for unobstructed content visibility
