

Description

Fischer Medium Clear Visi-Pak Inner (Special Order) is a compartment box constructed from GP Styrene that offers clear visibility and an optimised design for visual monitoring and organisation. It is intended for indoor use and provides a reliable solution for trade professionals managing components and parts. The clear construction supports efficient handling while the design meets the practical demands of daily operations in trade work.

Features

- Durable GP Styrene construction for long lasting use
- Clear finish for immediate visual identification
- Robust compartment design for efficient storage organisation
- Specifically engineered for easy indoor installation
- High quality Fischer design ensures reliable performance
- Lightweight build supports straightforward mounting
- Smooth surface finish reduces cleaning and maintenance efforts
- Precise dimensions simplify integration with existing systems
