Description

Fischer Green 0.5L Stor Pak is a set of stackable storage bins constructed in green polypropylene designed for clear organisation and practical storage solutions. They are optimised for safe and efficient use by trade professionals who require robust containers for tool and materials management in indoor environments. Their stackable design allows for space optimisation and effective visual case management while providing a durable and reliable option for day-to-day storage needs.

Features

- Durable polypropylene construction ensures robust indoor storage
- Stackable bins optimise space in challenging work areas
- Vibrant green finish aids easy identification in busy settings
- Secure stacking design improves overall storage stability
- Engineered for precise alignment and uncomplicated stacking
- Lightweight design facilitates easy handling and relocation
- Cost effective design supports diverse storage applications
- FISCHER manufacturing guarantees precise engineering and longevity
