Description

Fischer Red 0.5L Stor Pak is a stackable storage bin designed for efficient organisation of small parts in professional settings. Constructed from durable polypropylene and presented in red, it facilitates systematic storage and easy access to components for trade professionals. Its modular design optimises space utilisation in work environments, providing a practical, reliable solution for daily tasks that require organised, secure, and straightforward management of materials.

Features

- Built from durable polypropylene material
- Red colour enhances workspace visibility
- Stackable design increases storage density
- Engineered for quick and simple access
- Sturdy construction withstands heavy handling
- Compact dimensions suit confined storage
- Precision moulding ensures uniform stacking alignment
- Integrated design supports organised item management
