

Description

Fischer Green 2.5L Stor Pak is a robust stackable storage bin designed for systematic organisation in professional settings. Constructed from durable polypropylene, its modular design allows for efficient and space-saving storage solutions. The secure interlocking feature supports reliable arrangement of components and materials. It provides a practical and dependable storage option for trade professionals, contributing to improved workflow and material management in indoor workspaces.

Features

- Constructed from durable polypropylene for lasting indoor storage
- Stackable design simplifies storage organisation and space optimisation
- FISCHER bins offer efficient storage management
- Ideal for organising tools and supplies in various indoor applications
- Green colour ensures high visibility in busy workspaces
- Easy stacking design allows quick access and inventory checks
- Compact bins reduce clutter and improve workspace organisation
- Reliable construction supports safe and efficient load handling
