Construction

Product Material 1	Polypropylene
--------------------	---------------

Description

Fischer Red 2.5L Stor Pak is a stackable storage bin constructed from tough polypropylene. It offers efficient, systematic storage for components and small items, supporting work practices that prioritise clear organisation and ease of access. Its design encourages space optimisation while providing a reliable solution for trade professionals managing daily operational tasks in supported work environments.

Features

- Stackable storage bins for space-efficient storage solutions
- Durable polypropylene construction ensures long-lasting indoor use
- Bright red finish for easy product identification
- Engineered for secure stacking without compromising accessibility
- Precisely contoured design facilitates organised storage
- Low profile design fits efficiently into confined spaces
- Easy to clean interior for simple maintenance
- Robust construction paired with practical design features
