

Description

Fischer Clear 12L Stor Pak is a stackable storage bin constructed from polypropylene with a clear finish that allows visual identification of contents. The product features integrated hardware for secure assembly and user-friendly handling. It is designed to improve space management and organisation for trade professionals. Its interlocking structure facilitates efficient stacking, making it a practical choice for maintaining organised workspaces and simplifying storage solutions.

Features

- Clear transparent design for quick item identification
- Durable polypropylene construction ensures long-lasting indoor storage
- Stackable design optimises space in any storage system
- Integrated hardware provides secure and stable stacking capability
- Functional container with 12-litre capacity for versatile use
- Fischer design ensures compatibility with other Stor Pak systems
- Secure latching hardware simplifies assembly and disassembly operations
- Engineered for efficient organisation and clutter-free workspace

Product Code: F1H-064C

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	Yes
Appearance	
Product Colour	Clear
Construction	
Product Material 1	Polypropylene
